

Integrated waste management system for Calabria Sud, Italy.
Facilities for the Sorting of MSW and for the Recycling of Selected Waste.

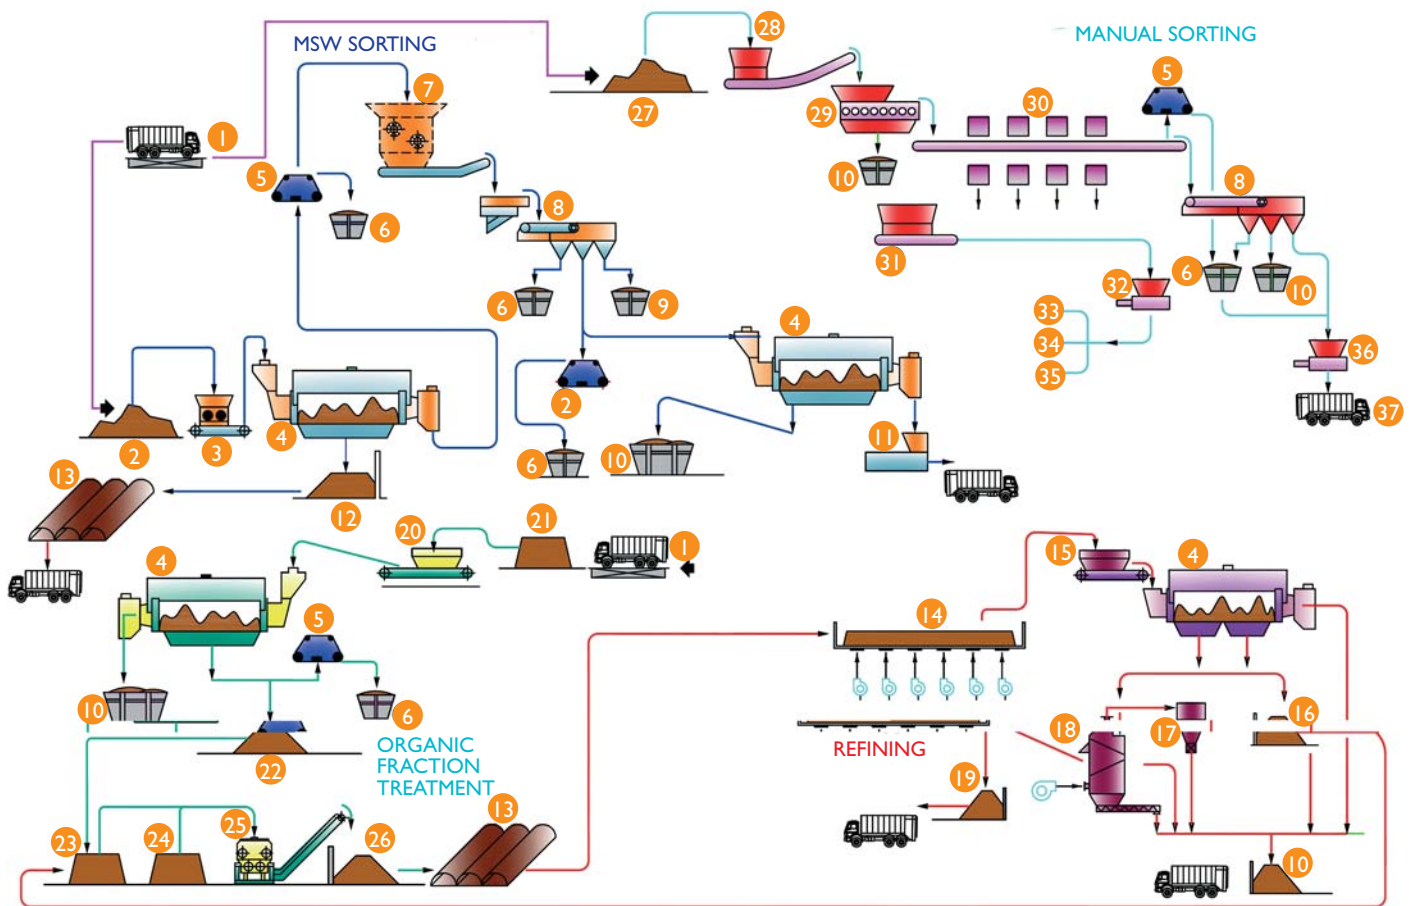

Siderno (RC) - Italy

The waste management system of the Calabria Region, Italy, is composed of a Waste to Energy plant in the Municipality of Gioia Tauro (RC), and of five Sorting, Composting and RDF production plants in the Municipalities of Reggio Calabria, Gioia Tauro, Siderno, Crotona and Rossano Calabro, for a total treatment capacity of 411.000 tons/year of MSW. TME was awarded the contract on Project Financing basis.

Energy and waste division

the natural borderline between the Municipalities of Siderno and Locri.

| 21 Organic waste to be treated | |
| 22 Treated organic waste | |
| 23 Recycle | |
| 24 Selected organic waste | |

Main data of the plant

MSW treatment capacity	40.000 tons/year
Stabilisation capacity of organic fraction from MSW	16.000 tons/year
RD organic waste composting line capacity	27.000 tons/year
RD organic waste composting line capacity	18.000 tons/year
